*Based on the 2008 HRC Corporate Index. These data represent the best efforts of the Human Rights Campaign Foundation to track laws and policies that relate gender identity discrimination. Because of the proprietary nature of human resource information and because there is no centralized place where laws and policies must be reported, some entities that have inclusive policies for transgender Americans may not appear. Also, while every effort is made to confirm the existence of these laws and policies, some may have been included in error.
